Experience

Web Developer *September 2009–present*

Full Sail University, Winter Park, Florida

- Developed internal web applications for tracking alumni and their jobs, credits and awards, controlling the custom YouTube Channel, monitoring and flagging spam leads and returning leads for a specified period of time in case of a service outage
- Developed MVC frameworks for LMS 2.0, .edu desktop and mobile sites and Full Sail's 2012 W3 Gold award-winning custom YouTube Channel, using FuseBox, ColdFusion and xml-based CMS, Alfresco
- Implemented and modified APIs for internal applications and .edu desktop and mobile sites
- Developed landing pages using HTML, CSS and JavaScript, implementing them in LiveBall as necessary
- Developed WordPress custom theme back-end for fullsailblog.com
- Performed bi-weekly deployments in load-balanced, multi-server environments for .edu desktop and mobile sites
- Encouraged and facilitated transfer of all marketing projects from SVN to Git
- Performed general site maintenance, content updates and bug fixes for all marketing sites associated with Full Sail
- Trained team members how to develop landing pages in LiveBall
